the National University System
An Overview

The National University System was established in 2001 to meet the emerging challenges and demands of education in the 21st century. The System is uniquely aligned to connect a diverse population of students to a network of innovative educational programs that are relevant to their lives, careers, and the marketplace, and are delivered formats that respect competing life priorities. The System is headquartered in La Jolla, California. The affiliates comprising the National University System are:

- National University
- John F. Kennedy University
- National Polytechnic College of Science
- National University International
- The Division of Pre-College Programs
 - National University Virtual High School
 - National University Academy of Health Sciences
- Spectrum Pacific Learning Company LLC
- WestMed College

The System also oversees the National University System Center for Integrative Health and the National University System and San Diego Institute for Policy Research.

National University
National University, founded in 1971, is the second-largest private, nonprofit institution of higher education in California. National University makes lifelong learning opportunities accessible, challenging, and relevant to a diverse population of nontraditional students. More than 100 graduate and undergraduate degrees are available, as well as 22 teacher credentials and numerous professional and personal enrichment certificates. Degrees and certificates cover a wide variety of fields of study that are offered through the University's five schools and one college.

School of Business and Management:
